

A natural, next level exfoliating and cleansing ingredient

DELAVIE SCIENCES

Hydrolytic Enzyme Complex

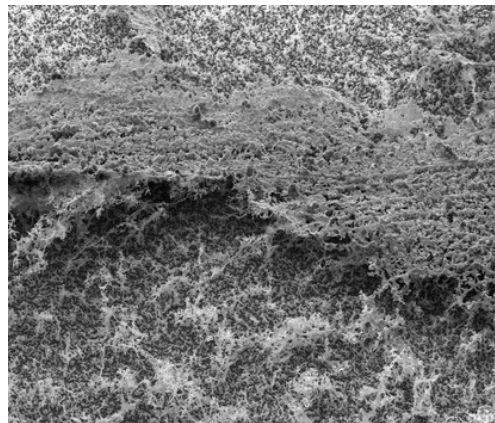

A patented ingredient developed in collaboration
with a world leading longevity lab

Co-developed with one of Harvard Medical School's top longevity research group, Delavie Science's patented ingredient, Hydrolytic Enzyme Complex (HEC), provides superior cleansing and exfoliating properties while being gentle and beneficial for your skin and scalp microbiome. Derived from a novel thermophilic fungus, the unique properties of the HEC allow for various applications in skin and hair care. Scientifically and clinically proven to improve skin firmness and elasticity, the ingredient provides significant skin benefits while enhancing skin smoothness and homogeneity.

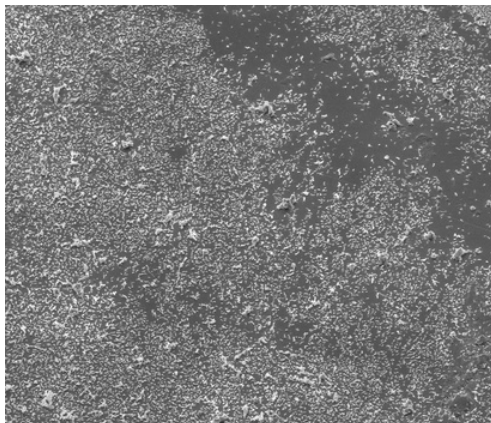

Study Results

- Targets oil control, elasticity, and skin renewal—without compromising barrier health.
- Science-backed ingredient designed to elevate cleansing and exfoliation like never before.
- Supports a healthy scalp and skin microbiome

BEFORE

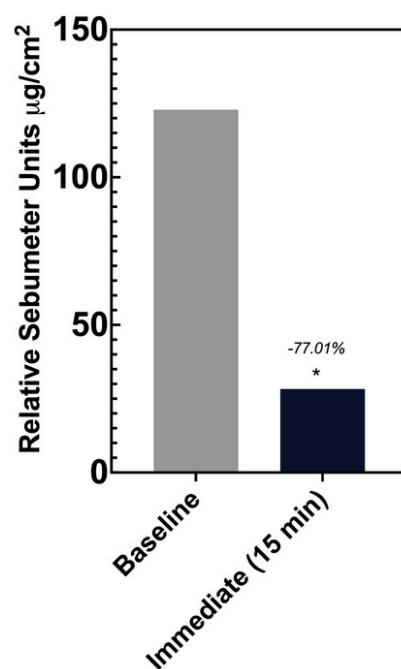

AFTER

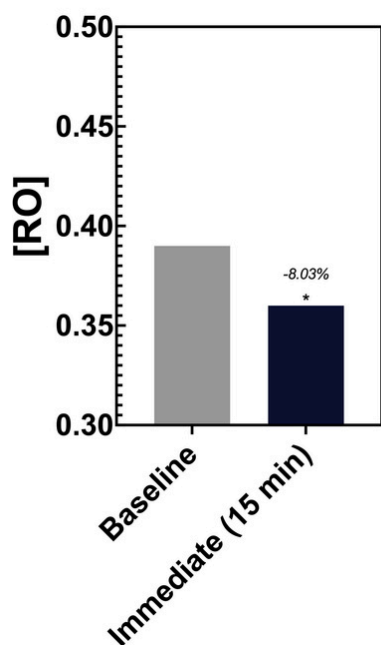

A typical representation of the surface cleansing efficacy of HEC, visualized via scanning electron microscopy.

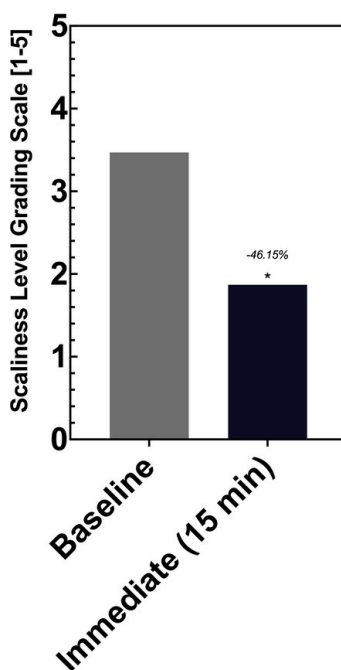

SEBUM REDUCTION ON SKIN

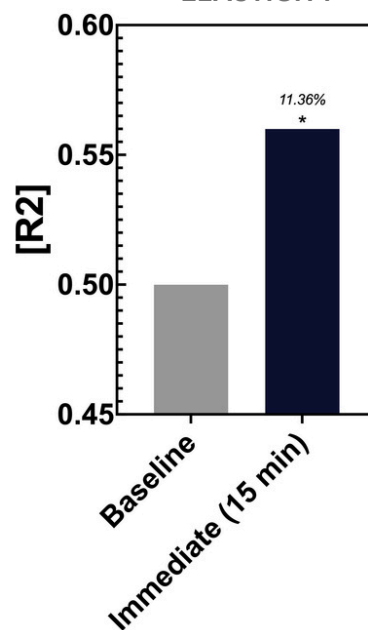

REDUCED SKIN FINAL DISTENSION

SKIN SCALINESS REDUCTION

INCREASED SKIN GROSS ELASTICITY
